

In response to Gerald Boyd's July 25, 2008, memorandum, subject: **IDENTIFICATION OF WORKPLACE OPTIONS TO ADDRESS RISING FUEL COSTS**, a survey has been developed to gauge your preferences and interests in identifying alternatives that will address current concerns related to the rising cost of gasoline. You are requested to complete the survey which can be accessed at <http://www.oakridge.doe.gov/workstudygroupsurvey/> by close of business on August 12, 2008. Results will be tallied and will serve as the basis for recommendations made to the Manager for consideration and approval.
